PROFESSIONAL SUMMARY

MERN stack developer eager to craft intuitive, high performing web applications with a strong focus on UI/UX design, proficient in JavaScript, React, Node.js, Express, and MongoDB, and ready to contribute fresh, innovative solutions to dynamic development teams. Seeking a growth driven role where I can leverage my full stack expertise to deliver seamless user experiences and accelerate product delivery.

PROJECTS

ResuMex

Developed an AI powered resume builder using the MERN stack and OpenAI gpt-oss-120b, designing and implementing full stack features including user authentication, real time content generation, and PDF export that accelerated resume creation by 70% .

Streamify

Developed Streamify, a MERN stack real time language learning platform that connects users worldwide through instant chat, video calls, secure email verified authentication, password recovery, and customizable themes, resulting in a scalable solution for learning languages via connecting with people.
