PROFESSIONAL SUMMARY

MERN Stack Developer skilled in building responsive and user-friendly web applications using JavaScript, React, Node.js, Express, and MongoDB. Passionate about UI/UX design and eager to contribute innovative solutions in a growth-oriented development environment.

PROJECTS

ResuMex — MERN project

- Developed an AI-powered resume builder using the MERN stack and OpenAI GPT-OSS-120B. Implemented full-stack features including user authentication, real-time content generation, and PDF export, reducing resume creation time by 70%.

Streamify — MERN Project

- Developed a real-time language learning platform using the MERN stack that connects users worldwide through instant chat and video calls. Implemented secure email-verified authentication, password recovery, and customizable themes to deliver a scalable language-learning solution.
